

# Offsetting certificate presented to:

OFFSETTING WITH  
RENEWABLE ENERGY  
CERTIFICATES

on behalf of the local project implementers:

**sonedi** **REEEP**<sup>®</sup>  
South African National Energy Development Institute      INVESTING IN CLEAN ENERGY MARKETS

in recognition that the greenhouse gas emissions related to the administration of SWITCH Africa Green's 'Sustainable Energy Consumption and Production in Agriculture and Integrated Waste Management' project in South Africa (November 2016 to January 2018) have been offset through the purchase and redemption of 70 Renewable Energy Certificates (equivalent of 70 MWh of renewable energy). The renewable energy was generated by the Komati Sugar Mill, located in Mpumalanga, South Africa.

Renewable Energy Certificate numbers: 00000027000000003812751144638 to 00000027000000003812751144644

Presented on 18 January 2018 at the Klein Kaap Hotel, Pretoria by:

Administrator of the South African  
Renewable Energy Certificates
