1. Introduction

"The world is not on track to realise the benefits of a low-carbon energy system - to limit long term temperature rises to 2 degrees centigrade. Progress remains alarmingly slow for a majority of technologies that could save energy and reduce CO2 emissions. And yet, positive examples exist and we can learn from them." Maria van der Hoeven, Executive Director of the International Energy Agency (IEA), New Delhi, April 2013

We believe there are many who have the same passion for the environment as we do. Individuals who not only possess bright and innovative ideas that can shape the environmental future of tomorrow but have the determination to carry these ideas out into completion. That person could be you!

The CTI PFAN Asia Forum for Clean Energy Financing (AFCEF-4) Business Plan Competition, promoted by the Climate Technology Initiative (CTI) and its Private Financing Advisory Network (CTI PFAN), and the International Center for Environmental Technology Transfer (ICETT), seeks to nurture entrepreneurs, start-up and existing companies, project teams and consortia with environmentally beneficial business proposals with the aim of linking them with investment and finance and making them happen.

Once you are short-listed for the AFCEF-4 Business Plan Competition, you will receive coaching from professional experts, who will help you to create a financially, socially and environmentally viable business plan. This Business Plan is your key to unlocking investment. After the coaching process, the Finalists selected from the short-listed projects will be invited to the Financing Forum in Singapore where you will have the opportunity to present your plan to invited investors to source the financing that you need. In addition, a panel of judges, made up of investors, industry specialists and business executives who have a keen interest in enabling cleaner and greener projects will select the best projects for the CTI PFAN Asia Clean Energy Financing Awards.

Through this process it is our aim to facilitate a marriage between entrepreneurs, their ideas and projects and investment. So take your ideas to the next level and grab this opportunity to see your business proposals transform into business reality.

2. Competition Guidelines

Eligibility

Any person or company resident or actively operating and / or registered in any Asian country may participate in the Business Plan Competition. Foreign persons or companies with projects in Asian countries are also eligible but the representative should be primarily based in the region.

Focus of Projects that will be considered

The project / business must promote or use clean energy technologies, products or services; these include for example:

- Biomass
- Biogas
- Bio-fuels
- Solar
- Wind
- Geothermal
- Hydropower
- Tidal / Ocean
- Forestry
- Rural Electrification
- Distributed & Off-grid Generation
- Energy Storage & Conservation
- Energy Efficiency
- Waste to Energy
- Emissions Reduction
- Clean Transport

Adaptation related projects are also considered as target projects; these include for example:

- Agriculture (agri-business & agri-processing)
- Micro-finance & micro-insurance
- Water & Sanitation
- Adaptation Products & Services
- Urban Development
- Energy & Energy Access
- Tourism

For more information on adaptation related projects, please refer to http://www.cti-pfan.net/events_detail.php?eventsid=52.

Competition Categories

In principle, business opportunities that require total (initial) capital in excess of US\$1 million (or any currency equivalent) will be considered.

Acceptable Proposals

Proposals eligible for the Competition, may include, but are not limited to:

- Greenfield & brownfield utility projects and distributed generation projects
- New business ventures
- Downstream projects: deployment of an existing clean technology
- Upstream technology development: development and commercialization of a new clean technology
- Merger, acquisition or joint venture which will add value to an existing / current clean energy / technology business

Proposals must plausibly demonstrate that the project is commercially and technically viable.

We advise applicants to structure their proposals taking into consideration the selection and scoring criteria as provided in Section 3.

Proprietary Information and Confidentiality

The organizers respect the confidentiality of all participants' business concepts and plans. Business concepts, overviews and plans will not be copied for any purposes other than use in the Business Plan Competition. The judges also recognize the sensitivity of the materials being presented and undertake that they are bound by the same considerations of confidentiality.

Teams may choose to include the following optional disclaimer on the cover sheet of their submissions, recognizing that it is not a legally binding agreement:

"This business plan is confidential and is presented solely for the purpose of evaluation in the CTI PFAN Asia Forum for Clean Energy Financing (AFCEF-4) Business Plan Competition. This plan may not be reproduced or redistributed in whole or in part. By accepting a copy of this plan, the recipient agrees not to reproduce or disclose the contents of this plan to third parties without the prior written consent of its authors."

Prospective participants in the CTI PFAN Asia Forum for Clean Energy Financing (AFCEF-4) Business Plan Competition may ask that confidentiality agreements be secured from coaches, organizers and / or judges. While the organizers of the AFCEF-4 appreciate the concerns behind these requests, as a matter of convention and practicality, confidentiality agreements are not signed as part of AFCEF-4.

Submission of Applications and Supporting Material

All submissions are to be made in electronic format. Consideration should be given to the size of individual files to ensure ease of transmission. To increase information security and authenticity, files should, where possible, be submitted in PDF format and financial models in Excel format.

The Application Consists of:

- The completed Application Form (as a pdf file)
- The Project Proposal (as a pdf file)
- The completed Project Data Sheet (as an excel sheet)

3. Selection Criteria

Initial Selection: Project Proposal Submission

Of all the applications received, around 20 projects will be selected based on the following Assessment Criteria to receive free coaching on project development and further structuring, design and presentation of their business plans.

NO.	ASSESSMENT CRITERIA	WEIGHTING
1	Value Proposition & Business Model: <ul style="list-style-type: none"> - Is the underlying project / business rationale clearly stated? - Is the investment proposition clearly stated? - Is the project / business commercially feasible & profitable? - Is the business / project model clearly described? - Is the proposition attractive to investors? 	15%
2	Market Understanding and Analysis: <ul style="list-style-type: none"> - Identification of the market segment - Analysis and knowledge of the market size, trends, barriers and prospects - Description of the project's competitive strategy, strengths and weaknesses 	10%
3	Management Team: <ul style="list-style-type: none"> - Experience and track record of the team - Is the team capable of delivering the project - Are solutions provided for potential management gaps 	10%
4	Operations & Implementation Plan: <ul style="list-style-type: none"> - Construction and implementation of the value chain - Inbound and outbound logistics - Analysis of the activities necessary to transform the inputs / activities into the final project / product / service 	10%
5	Financials: <ul style="list-style-type: none"> - Overview of capital expenditure, revenue and cost - Explanation of assumptions - Proposed financing structure - Financial projections and scenario analysis - Exit plans - Do the financials mirror the verbal projections of the plan? 	15%
6	Risk Mitigation: <ul style="list-style-type: none"> - Are the principal risks and appropriate mitigation strategies identified? 	10%
7	Environmental & Developmental Benefits: <ul style="list-style-type: none"> - Reduction of GHG - Other environmental & developmental benefits (job creation, health, etc.) 	10%

8	Project Maturity: - How mature is the project? How soon can it be implemented? - What has already been achieved?	5%
9	Growth / Replication Potential: - Is the business model scalable? Does it demonstrate the potential for organic growth or replication?	5%
10	Technological, Product or Service Innovation	5%
11	Professionalism and Presentation of the Proposal: - Structure & presentation of document - Easy to read and comprehend	5%
TOTAL		100%

The initial assessment does not judge teams based on how complete the proposal is. It will be judged more on the potential for success. Attention will be paid to identifying proposals which are technically feasible but have yet to develop a strong business angle. The same goes for business plans that seem less professional but which might actually have potential given adequate support. By the same measure, mature projects which have undergone extensive development work will be prioritised over concepts and ideas at a less developed stage.

Second Selection: First Draft of Business Plan

The selected projects will attend the Project Development & Financing Workshop and will receive free professional coaching on the further development of their business plan. The coaching will be designed to focus on the specific requirements of each selected project with a view to preparing projects for the Forum.

During the coaching period and after the Project Development & Financing Workshop each team will be required to submit the first draft of their Business Plan and the assigned coaches will make a recommendation as to whether each project is ready and suitable for presentation at the Forum.

Based on assessment of the first draft Business Plan and the coaches' recommendations, projects will be further categorized as Finalists or Semi-Finalists. Only the selected Finalist project teams will be entitled to make presentations of their projects at the Forum to the assembled investors and panel judges. The Semi-Finalist project teams will however continue to receive coaching to further develop their business plan and be profiled at the Forum through a poster session.

The selection criteria for the selection of the Finalist projects are as follows:

NO.	ASSESSMENT CRITERIA	WEIGHTING
1	Value Proposition & Business Plan	10%
2	Readiness for Implementation	10%
3	Market Analysis and Competitive Advantage	10%
4	Management Capability	15%
5	Technical & Operational Feasibility	15%
6	Economic Attractiveness	15%
7	Risk Mitigation	15%
8	Overall Impression	10%
TOTAL		100%

This portion of assessment would judge teams based on a critical review of the business plan considering amongst others issues whether it:

- *is thoroughly prepared,*
- *is financially attractive,*
- *has identified a strong market demand for the business,*
- *shows a competitive advantage in the market,*
- *demonstrates a strong, committed management team and / or a clear recognition of what will be needed,*
- *has a sound investment structure, with potential exit strategies for investors,*
- *is well thought out in terms of risk / threats and opportunities involved.*

Final Selection: Business Plan Presentation at the Forum

Up to 10 Finalist project teams will be given the opportunity to make an investor pitch presentation at the Forum in front of specially assembled investors and financiers and the expert judging panel. The following assessment criteria will be used by the judging panel in selecting the best projects and making the awards. The judging panel will give scores 1-10 for each assessment criteria.

NO.	ASSESSMENT CRITERIA
1	Definition and knowledge of the market
2	Definition of products or services - Value proposition - Innovation & IP
3	Credibility of Revenue Generating Strategy / Growth Strategy
4	Credibility of Management & Achievability of Implementation Plan (Marketing Plan and Operations Strategy)
5	Achievability / Credibility of Financial Projections - Credibility of capital expenditure & assumptions - Achievability of projected revenues - Reality of scenario analysis
6	Identification, enforcement and protection of Competitive Advantage - Identification of chief threats and opportunities - Protection of IP where applicable - Awareness of the competition
7	Suitability & Effectiveness of Risk Mitigation Strategies
8	Focus on Critical Elements for Success of Business / Project
9	Environmental, Energy Access & other Developmental Benefits
10	Definition and Potential of Investor Exit Strategy

The panel of judges will be provided with a copy of the business plan some days ahead of the Forum for advanced review and preparation. The judging of the competition will however be based largely on the presentation and its immediate impact. After each presentation there will be a round of Q&A from the judges.

4. Timeline

The timeline of the competition is divided into 3 stages:

Stage	Deliverables	Submission
1. Application & Initial Selection	Application Form, Project Proposal & Project Data Sheet	09. 09. 2013
The Initial Selection results to be announced in 10 days		
2. Coaching, Business Plan Presentation at the Project Development & Financing Workshop, & Finalist Selection	Presentation slides for the Project Development & Financing Workshop	28. 10. 2013
	1 st Draft of Business Plan	05. 12. 2013
The Second Selection results to be announced in 2 weeks		
The feedback to be provided in 2 weeks		
	2 nd Draft of Business Plan, Executive Summary & Updated Project Data Sheet	09. 01. 2014
The feedback to be provided in 1 week		
	Draft of Presentation Slides for the Financing Forum	23. 01. 2014
3. Financing Forum	Final Draft of Business Plan, Executive Summary & Final Project Data Sheet	10. 02. 2014
	Final Presentation Slides for the Financing Forum	28. 02. 2014
The Award Winner Selection to be announced at the Financing Forum		

Stage 1: Application & Initial Selection

The submission of the Application Form together with the Project Proposal and Excel Project Data Sheet must be made by Midnight (Japan Time) on Monday 9th September 2013 to afcef-4@cti-pfan.net. Application Form, templates for the Project Proposal and Project Data Sheet as well as Project Proposal Guidelines are available at http://www.cti-pfan.net/events_detail.php?eventsid=57.

Participants selected to advance into the next round will be notified by Thursday 19th September 2013. Immediately following this notification, organizers will work with the selected participants to arrange the agreed coaching support for the next stage of the competition.

Stage 2: Coaching, Business Plan Presentation at the Project Development & Financing Workshop, and Finalist Selection

In this stage of business plan guidance, the assigned CTI PFAN Coaches will assist the project teams in preparing an investor ready business plan. This support, up to four working days (32 hours) in total, will be provided at no cost to the project teams.

Additionally Project Development & Financing Workshop will be held on Wednesday 30th October 2013 for all selected participants to provide expert input and advice in a group environment. Guidelines for the presentation of the Business Plan will be made available at the Project Development & Financing Workshop.

By COB (Japan Time) on Thursday 5th December 2013, the short-listed teams are expected to have developed the first draft of business plan. Based on the submitted Business Plans and recommendations by the CTI PFAN AFCEF-4 Coordinators, up to 10 teams will be selected and announced as Finalists on 19th December 2013, to proceed to the final stage - Financing Forum. The feedback from the assessment of the submitted business plans by the CTI PFAN AFCEF-4 Coordinators will be provided to all short-listed teams. Those who are selected as Finalists will be invited to present their ideas to specially convened investors and an expert judging panel at the Financing Forum in Singapore. The selected teams will continue to receive coaching up to the day of the Forum.

By COB (Japan Time) on Thursday 9th January 2014, the Finalist teams are expected to have developed the second draft of Business Plan, 2-3 pages Executive Summary as a stand-alone document and Project Data Sheet, which shall be sent to the CTI PFAN AFCEF-4 Coordinators for assessment. The feedback from the Coordinators will be shared with the respective teams on 20th January 2014.

The Final draft of Business Plan, stand-alone Executive Summary and Project Data Sheet will be due on Monday 10th February 2014. This Business Plan and stand-alone Executive Summary shall be sent to a panel of judges for assessment on 14th February 2014.

Stage 3: Financing Forum

The outline program of the Forum in Singapore on 26th -28th February 2014 is as follows:

26th: Preparatory Workshop

The first day will consist of a Workshop at which it is anticipated that the Finalists will work to put the finishing touches on their investor pitch presentations. The workshop will be led by the CTI PFAN Coaches and investment experts and there will be opportunity for mock presentations / dry runs in preparation for the formal presentations on 28th.

28th: Financing Forum

The intention is that a number of interested investors will be invited to join the Financing Forum and each Finalist will be given the opportunity to make a 15-minute presentation. This presentation will be in front of interested investors and a panel of judges who will choose the winner of the CTI PFAN Asia Clean Energy Financing Award. The results of the deliberation will be announced and the Award will be presented at the post-Forum reception.

All teams that have taken part in the Forum will be invited to participate in the reception where competitors and investors can continue to interact informally.

***Note:** Travel, accommodation and participation costs for one of the team members to attend the Project Development & Financing Workshop and the Financing Forum will be borne by the organizers. Travel support can only be provided to project team members (starting their journey) from within the Asian region.*

5. Coaches

Short-listed teams will be offered:

- One-on-one coaching up to an agreed time (expected not to exceed 4 days in total) / monetary value as negotiated between the organizers and the nominated coaches.
- Coaching will be provided by industry experts, consultants and advisors who are members of the CTI PFAN Network (see www.cti-pfan.net). The nominated coaches have extensive experience in providing such services within the clean energy markets internationally and in Asia.
- Coaching input will be provided by e-mail and telephone exchange between the parties but funding is available to ensure that face to face meetings will be possible during stages 2 & 3 of the Business Plan Competition. In addition group coaching will be provided through the Project Development & Financing Workshop.

6. Judging Panel

The judging panel will consist of industry experts, investors and financiers chosen from and familiar with the local business environment of the projects. To ensure suitability and objectivity of the judges and avoid possible conflicts of interest the judging panel will only be nominated and announced after selection of the projects for the Business Plan Competition.

7. The Awards

The CTI PFAN Asia Clean Energy Financing Awards will be made to the 3 projects adjudged by the panel of judges to have best met the assessment criteria. It is anticipated that all project teams participating in the Forum will continue to receive CTI PFAN support in promoting their business plans and securing investment and be inducted into the CTI PFAN development pipeline accordingly. In addition the 3 award winners will receive further intensive one-on-one coaching in progressing their business plans towards financial close, accessing investors and deal facilitation and to these ends will be showcased at other forums and events of CTI PFAN, the Sponsors and Co-Organizers.

8. Frequently Asked Questions

1. How is the AFCEF-4 Business Plan Competition being organized?

- The CTI PFAN Asia Forum for Clean Energy Financing (AFCEF-4) Business Plan Competitions is funded by a number of groups including CTI, CTI PFAN, USAID & ICETT.
- The evaluation of the executive summaries, business plans and other submitted documents will be supported by members of the CTI PFAN Network and others drawn from the industry within the region and internationally. A number of these individuals are expected to provide mentoring for participants in the competition. CTI/ICETT will give final approval on the Finalists for each stage based in recommendations from the evaluation team.
- The Financing Forum to be held in Singapore will be organized in cooperation with Dawn Consulting, CleanEnergy Solutions International (CSI), PPL International, the Sustainable Energy Association of Singapore (SEAS) and Impact Investment Exchange Asia (IIX).
- A panel of up to 5 judges will hear each of the presentations at the Forum and will decide amongst themselves which should receive the CTI Asia Clean Energy Financing Awards.

2. Are there guidelines for preparation of the Project Proposal / Business Plan / Presentation?

Yes. Please go to http://www.cti-pfan.net/events_detail.php?eventsid=57 for details.

3. How will mentoring / coaching support services be arranged and funded?

The needs of each qualifying project team will be reviewed with the organizers and an appropriate coaching package agreed. The payment for these services will be made directly by the organizers to the provider / assigned coach.

4. Who is responsible for the team's expenses and traveling costs?

- All costs for the preparation, submission and correspondence related to application and participation in the AFCEF-4 will be at the respective project team's own expense.
- Pre-agreed third party costs for coaching / mentoring will be supported as outlined in 3.
- Travel and accommodation costs for those invited to attend the Singapore Forum and where applicable the Project Development & Financing Workshop will be arranged by the organizers in consultation with the Short-listed project teams. Travel support can only be provided to project team members (starting their journey) from within the Asian region.

5. What are the benefits of participation in the Business Plan Competition?

- For those who qualify for stage 2, there will be free coaching, mentoring and support provided to assist in bringing your business plan to a stage where it is of a high quality and ready for presentation to potential investors.
- Those involved in the coaching and mentoring have significant experience in this market and in particular in assisting in the preparation and presentation of business plans and sourcing investments. All participants will receive free expert inside guidance, input and insight into the

development and presentation of your proposal / business plan.

- The Forum will bring together a range of investors who are active in the clean energy sector in Asia. This will provide an opportunity for one on one contact to explore possible financing for your business. As a result of the presentations the organizers will facilitate follow up discussions with Investors as appropriate and required.
- All project proposals submitted to the Business Plan Competition will be considered for induction into the CTI PFAN development pipeline. Such projects will be provided ongoing support and advice on the development and presentation of their business plans and will be profiled among the CTI PFAN investor networks.

6. Can other modes of presentation be used to support the business plan?

You may choose to use video or any other form of appropriate presentation media (within reason and logistical availability) to support your business plan under stage 2. The final presentation in front of the judges at the Singapore Forum is, however, limited in time and much of their evaluation will be on your success in convincing them of the credibility of your business plan. As such you should carefully consider the format and timing of your presentation and it is expected that you would only use a limited number of PowerPoint slides (and other media) to reinforce your presentation.

9. Organizers

Listed are the profiles of the co-organizing committee involved in putting together this competition:

Climate Technology Initiative (CTI) is a multilateral initiative, currently functioning as an implementing agreement under the International Energy Agency, bringing together Australia, Austria, Canada, Finland, Germany, Japan, Norway, the Republic of Korea, Sweden, the United Kingdom and the United States. CTI fosters international cooperation in the accelerated development and diffusion of climate-friendly and environmentally sound technologies and practices. www.climatetech.net

Climate Technology Initiative Private Financing Advisory Network (CTI PFAN) is a multilateral, public-private partnership initiated by the CTI in cooperation with the UNFCCC Expert Group on Technology Transfer. CTI PFAN was established to bridge the gap that exists between investors and financiers on the one hand, and entrepreneurs and project developers on the other. CTI PFAN targets clean energy projects that may be suitable for private-sector finance at an early stage and then acts as a project financing coaching and consultancy service to guide such projects to bankability and financial closure. www.cti-pfan.net

United States Agency for International Development (USAID) promotes long-term and equitable economic growth by supporting economic growth, agriculture and trade, including sustainable energy initiatives; global health; and democracy, conflict prevention and humanitarian assistance. USAID supports CTI PFAN through its Bureau for Economic Growth, Education and the Environment (E3) in Washington, DC, as well as its Regional Development Mission for Asia (RDMA) based in Bangkok, Thailand. RDMA acts as the Regional Coordinator for CTI PFAN in Asia. www.usaid.gov

International Center for Environmental Technology Transfer (ICETT), established in 1990 by Mie Prefecture and Yokkaichi City with the active support of the Japanese national government, industries and academic circles, is contributing to international environmental conservation efforts by transferring Japan's accumulated technological and administrative know-how and experiences to developing countries, with an emphasis on meeting specific needs in each country. ICETT is the CTI secretariat and provides administrative and logistical support to CTI PFAN globally. www.icett.or.jp/english/index.html

The Energy for All Program (E4A) is the **Asian Development Bank's (ADB)** response to the growing challenge of energy poverty in Asia and the Pacific. Its objective is to provide modern energy access to 100 million people by 2015. This is achieved by a two-pronged approach that seeks to mainstream energy access within ADB's operations department, and facilitates private sector investment for the replication and expansion of energy access enterprises in Asia and the Pacific. www.adb.org/sectors/energy/programs/energy-for-all-initiative; www.energyforall.info

Impact Investment Exchange Asia (IIX) is a Social Enterprise (SE) dedicated to creating vibrant social capital markets in Asia Pacific. IIX operates two capital-raising platforms tailored for SEs at various stages of growth -- Impact Incubator™ and Impact Partners™ -- and is developing a third -- Impact Exchange™. These platforms showcase Asian SEs seeking growth capital to a global audience of impact investors, giving these SEs greater opportunities to scale and expand their positive impact. IIX also works to develop the financial products and ecosystem that will facilitate the growth of the impact investment sector in Asia Pacific. www.asiiaix.com

Dawn Consulting is a boutique firm specialising in corporate financial consulting. It is in the space of venture capital, private equity, project funding, working capital funding, foreign direct investment, external commercial borrowings, due diligence, transaction structuring, mentoring and in corporate strategy consulting.

Its expertise is in working with companies to solve pressing financial needs. By focusing on underlying customer needs and the fundamental economics of the business, Dawn Consulting helps companies rethink their strategic assumptions and optimize their financial leveraging. Dawn Consulting suggests structures that optimises debt and equity mix for key growth or consolidation moves, make available additional resources to invest in building capacity, enter new markets and re-define product mix. Over the past six years Dawn Consulting has mentored several projects in renewable energy and energy conservation in India and in Africa. Dawn Consulting have provided service to companies throughout India and overseas in a broad range of industries; manufacturing, engineering, real estate, financial services, infrastructure and mining and service sectors like information technology, hospitality and others over the last 12 years.

www.consultdawn.com

CleanEnergy Solutions International (CSI) is a consulting firm that specializes in market analysis, business development, financial packaging and investment facilitation. CSI has implemented projects in the Philippines, Indonesia, India, Thailand and other Asian countries in the renewable energy, energy efficiency, clean transport, and environment sector. Currently, CSI is the country coordinator of CTI PFAN in the Philippines. www.cleanenergy.com.ph

PPL International is an independent financing advisor specializing in structuring projects and raising finance and investment for clean & renewable energy projects in developing countries. PPL works in Africa, Asia and the CIS and Eastern Europe. PPL is a Global Coordinator of CTI PFAN.

www.ppl-int.com

The **Sustainable Energy Association of Singapore (SEAS)** represents the interests and provides a common platform for companies in Renewable Energy, Energy Efficiency, Carbon Development and Trading, and Financial Institutions to meet, discuss, collaborate and undertake viable projects together. The Association extends its focus to include Capacity Building, Technology Strengthening and Market Intelligence assisting its members in achieving Sustainable Growth locally and regionally via enterprise development, market development, training and learning platforms. SEAS plays a strategic role in aiding the realisation of Singapore's vision, to be a Global Clean Energy Hub where products and solutions are developed and exported. SEAS has also built strategic collaborative relations with regional clean energy industry organisations, multilaterals and key government institutions enabling projects for its members. www.seas.org.sg

AFCEF-4 Application Form

I / We, hereby indicate our interest to participate in the CTI PFAN Asia Forum for Clean Energy Financing (AFCEF-4) Business Plan Competition. In submitting this application we acknowledge the general terms and conditions of the Business Plan Competition as outlined in the guidelines.

Team / Company Name: _____

Project Name: _____

Brief Project Description including Location (max. 50 words):

Country where Project is Located: _____

Signed on behalf of the Team / Company

Signature: _____ Date: _____
